

IMPORTANT REMARKS:

1. This device is not a toy. Keep it away from the reach of children. Use it only for its bark-stopping purpose.

2. Multivet's Anti-Bark Spray Collar must be used only on healthy dogs. We recommend that you take your dog to a veterinarian before using the collar if he is not in good health.
3. Your *Anti-Bark Spray Collar* is splash proof but not completely watertight. Remove it letting your dog go for a swim.
4. Keep the device clean at all times. Do not immerse it in water when cleaning. Simply use a dry cloth to wipe away dirt. You may lightly brush with an old toothbrush if dirt accumulated in front of the microphone grid.
5. Do not leave your device unattended where your dog could get hold of it and damage it through chewing.
6. Make sure that the batteries you are using are still adequate to operate the device. The device requires 6 volts alkaline batteries but for longer life, 6 volts lithium may be used. Any one of the following or equivalent battery may be used. The Anti-Barking Deluxe requires 3 volts lithium battery.
7. The microphone of the device is calibrated so it won't be activated by nearby sounds. However, the barking of another dog at close range could cause the device to spray
8. Never fill the *Anti-Bark Spray Collar* with any other substance than the one provided by the manufacturer. Using any other substance, as well as opening the device, will void the manufacturer's warranty.
9. Always make sure that you are not, mistakenly trying to fill the reservoir through the microphone opening. This would damage the device.
10. If your dog tries to take off the device, a harness can be used instead of the collar provided in the kit. Dog harnesses are available in all good pet shops.
11. The hypo-allergenic spray can is a pressurized container. Do not pierce it, heat it or dispose of it in a fire as it may explode. Please read instructions on the can.

12. Do not expose the device neither to freezing temperatures nor to conditions warmer than 45° C. Be particularly careful not to leave the device in direct sunlight, either by a window or in a car where the device can heat up to very high temperatures.

Do not attempt to repair the device yourself: This will invalidate the warranty and make repairing more difficult. If the spray collar doesn't work, call our toll-free customer service: **1-800-303-0244**.
